5. The water is to be diverted from its source at the following point: (Describe as being within a 40-acre subdivision of public survey, and by course and distance to a found section corner. If on unsurveyed land, it should be so stated.)

SE1/4 SE1/4, Section 20, T21S, R61E, MDM

6. Place of use: (Describe by legal subdivision. If on unsurveyed land, it should be so stated)

SE1/4, Section 20, T21S, R61E, MDM

7. Use will begin about January 1 and end about December 31 of each year.

Month and Day

Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e. diversion structure, ditches and flumes, drilled well with a pump and motor, etc.)

Shallow well of 60 feet in depth, pump and controls, distribution and water treatment system.

9. Estimated cost of works: \$500,000

10. Estimated time required to construct works: 2 years

(If the well is complete, describe works.)

11. Estimated time required to complete the application of water to beneficial use: 10 years

12. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

This application is to appropriate poor quality shallow groundwater for beneficial use for landscape irrigation and water feature make-up supply at the proposed Arena and Park projects. This application is being made in accordance with NRS 534.025 and 534.050 (c) for wells drilled in shallow groundwater systems to alleviate potential hazards to persons and property from the rise of groundwater caused by secondary recharge.
